- Custom stainless steel F-Class body
- High-performance — Detroit Diesel Series-60® powered
- Ease of service — Mid-Engine and rear pump access
- Fully NFPA compliant

Simplified pump operations with color organized panels

Swing away doors permit easy servicing of fluids and power plant - no need to tilt the cab

Ergonomically low-profile designed dash offers improved accessibility and visibility

More cab room - Increased by 50 cu ft versus standard configuration

## F-CLASS MID-ENGINE™

These are the typical specifications for the American LaFrance F-Class Mid-Engine Pumper:

**CHASSIS:** American LaFrance Eagle® Mid-Engine™

**CAB:** With the powerplant behind the cab, the interior has a completely flat floor. All metal severe-duty dash was designed for the harshest environments while allowing maximum room for your crew.

**WHEEL BASE:** 196"

**OVERALL LENGTH:** 392" (32'-8")

**OVERALL HEIGHT:** 126" (To top of optional roof mounted air conditioner).

**ENGINE:** Detroit Diesel Series-60® - Available up to 515 hp/1650 lb ft.

**TRANSMISSION:** Allison 4000-EVS or 4500-EVS

**TANK:** UPF 500/40/40

**BODY:** 100% Type #304L stainless steel with full stainless steel sub-frame and support structure.

**FIRE PUMP:** Hale PSD, 1250 GPM

**FOAM:** CAFS, Pneumax 200-P (optional)

**HOSEBED:**

Bed 1=200' of 2-1/2" hose

Bed 2=1200' of 4" hose

Bed 3=350' of 2-1/2" hose

**HOSE REEL:** Mounted behind the front grill. 150' of 1" hose for more front jump line storage.

**PRODUCT CAPABILITIES:** Full-use Rescue-Pumper. Generous compartment space permits adaptation to structural fire fighting and rescue duty. Flexible interior space can be customized to meet exacting customer requirements.
