

E-CLASS DRYSIDE

TANKER

A high-strength, low-weight solution with a wide range of options and configurations to meet your tanker evolution needs.

- Choice of Chassis: American LaFrance Eagle®, Metropolitan, or Freightliner M2 and Sterling Acterra
- 2-Door and 4-Door conventional cabs
- Heavy wall custom alloy extrusions with interior and exterior welded joints provide maximum strength
- 4x2, 4x4, 6x4 or 6x6 configurations
- High-strength 1/8" or 3/16" aluminum alloy body panels
- Tank sizes between 1500 gal and 3500 gal
- Customizable pump options, compartment configuration, and water dumps to meet all utility needs
- Modular pump compartments reduce stress on body and tank

High-strength aluminum alloy extrusions provide trouble-free tanker design

Pump options include PTO or split shaft configurations with all major brands

E-CLASS DRYSIDE

These are the typical specifications for the E-Class Dryside Tanker:

DURABLE CONSTRUCTION: Heavy wall custom alloy extrusions; interior and exterior welded joints. 1/8" or optional 3/16" aluminum alloy wall body panels. 4-point, spring-loaded mount system provides resistance to shock to extend the life of the body and tank support.

CONFIGURATIONS: Available on Freightliner M2 and Sterling Acterra, 2-door and 4-door conventional cabs, Condor low cab forward chassis, American LaFrance Eagle® and Metropolitan custom fire chassis. Choose from 4x2, 4x4, 6x4, and 6x6 drive configurations (all wheel drive not available on all chassis).

MODULAR PUMP COMPARTMENTS: Removes excess torsion stress from chassis, preventing structural failure of body and tank.

CUSTOM BODY MODIFICATIONS: E-Class body can be lengthened and/or raised to accommodate specific needs.

CUSTOM CONFIGURATIONS: Modify compartment space, hose capacity, and water loading/off-loading capability according to the unit's mission.

PUMP OPTIONS: Available from 350 GPM transfer pumps to 2000 GPM Class A pumps.

DUMP OPTIONS: Jet Dump, 10" Square Dump, or 8" Round Dump available. Additional options include: single or multiple discharge points, manual, air control or electric control, with or without extension chutes.

TANK CAPACITY: Tank sizes between 1500 gal and 3500 gal. Square style or elliptical design.

PROVEN TANK CONSTRUCTION: All tanks constructed of proven UPF polypropylene. Fully tested with a lifetime warranty.

PORTABLE WATER TANK COMPARTMENTS: Manual or electric.

Custom compartmentation and portable tank storage/access options

Freightliner M2 Chassis available to 66,000 lbs GVWR with power options up to 410 HP and seating for up to six
